

# THE GLEICHEN CALL

VOLUME 47 NO 46

Authorized as second class mail, GLEICHEN, ALBERTA, WEDNESDAY FEBRUARY 2, 1955

SUBSCRIPTION \$2.00

## Canadian Legion Polio Fund

The Fight Polio committee of the Canadian Legion spent nearly \$30,000 in Alberta last year to protect stricken families from financial troubles and indirectly to help scores of polio victims in their battle against the crippling disease.

According to the financial statement issued recently by the Legion polio committee, direct special assistance grants totaling \$28,903 were authorized in 127 cases, scattered throughout Alberta.

The Legion is conducting a province wide campaign in Alberta at the present time, so it can continue to give assistance to victims who are not eligible for aid from the provincial department of health or other agencies.

Much of the assistance given last year was in direct house-keeping grants, which are paid when the head of a family is stricken and the wife must work to support the children, or when the wife is stricken and outside help must be employed to maintain the household.

The doctors who serve on the polio committee's medical advisory board say this type of aid has an important bearing on the success with which a patient can overcome the dread disease.

The medical men are called into consultation on cases which the Legion has been asked to assist, and advise on what type of assistance they think should be given.

They say the patient's mind should be free from other worries, and that financial difficulties could seriously retard their progress.

For that reason, the Legion endeavors to eliminate financial worries when at all possible and tries to keep stricken families within a reasonable standard of living.

Besides house-keeping grants, the Legion in some cases has paid outstanding accounts to keep families out of debt.

## Golden Jubilee

The fiftieth year has been a year for Jubilation ever since the children of Israel were commanded to mark that year as a time of ingathering and celebration. It is right that we in Alberta, also, should hallow our fiftieth year for there is much cause for thanks giving and rejoicing in a land so richly blessed by the Creator. A Golden Jubilee Year serves only to increase and concentrate the praise that should continually be going forth to God from a free and prosperous people.

Alberta Jubilee Celebrations will last from now until December but activities will be concentrated during the summer months beginning June 5th. The climax will come during Golden Jubilee Week of September 5th to 10th when gay parades will move through the streets and groups will join in the presentation of colorful pageants. Work completed will be dedicated and work to be done will be officially recognized by the traditional laying of the corner stone.

Preceding this week of festive activities will be Provincial Day of Prayer. September 4th has been set aside as a day in which all citizens may give thanks for the progress of the past half century and humbly ask for continued prosperity in coming years.

All babies born in Alberta on Jubilee Day, Sept 1st, will receive engraved silver spoons and a presentation will be also made to all those married in the Province on Jubilee Day.

Two mobile caravans are to be purchased to carry and exhibit Golden Jubilee displays. The caravans, which will be equipped with facilities for the projection of motion pictures, will tour Alberta towns, villages and municipalities from June to September as part of local Jubilee programs. A pro-

Everyone connected with radio's newest quiz program "Hide and Seek" is enthused over the response. The weekly Trans-Canada network show consists of a panel of well-known personalities who must find, by asking questions and receiving only

## TOWN AND DISTRICT

Mrs. J. Neil of Vancouver spent several days last week in town visiting relatives. It has been many years since Mrs. Neil moved away from Gleichen.

Miss Lila Henly, daughter of Mr. and Mrs. Tom Healy of the Blackfoot reserve has joined the R.C.A.F. as a typist and left last week for St. Johns, Quebec for training. Before joining the R.C.A.F. she was employed by the regional office of the Indian Affairs branch, department of citizenship and immigration.

Special Jubilee activities in Alberta schools will be arranged by the Alberta Department of Education, with the Department of Agriculture providing seedlings for beautification projects. On June 9th Jubilee activities in the schools will end with a program and the dedication of the trees.

To assist municipalities in the organization of local Jubilee celebrations, the government will make available a grant at 25c per capita. This fund may be used for decorations but it is hoped that many municipalities will use the fund for the establishment of some permanent project such as rest centres, parks or playgrounds.

As each community is being urged to set up its own Jubilee Committee and to arrange local celebrations, the Alberta Golden Jubilee Committee has sent out questionnaires to each municipality. When returned these questionnaires will give the Committee information which will enable them to help each community plan their celebration.

We have before us two Canadian One-Dollar bills. The first is dated Ottawa, Jan. 3rd 1937. It reads:

"Bank of Canada will pay to the bearer on demand One Dollar

J. E. Coyne G. F. Towers"

The other bill is dated Ottawa, 1954. It reads:

"Bank of Canada will pay to the bearer on demand J. E. Coyne G. F. Towers."

Can anyone tell us the reason for this change in wording on our dollar bill?

Is it no longer the intention of the Bank to pay us anything for our dollar when we present it for redemption; or does the Bank think that our dollar has shrunk to the point at which it is no longer visible to the naked eye?

There were 6,323 farms electrified in 1954. This compares to 6,126 electrified in 1953. There are now 30,504 electrified farms in Alberta and with the addition of non-farm and hamlet customers served off rural lines, the total number of customers is 35,139. It is expected that this pace will continue during 1955 since the Alberta Power Commission reports that there are 2,073 more farmers organized into associations and requesting service.

More are expected to organize during the year.

## Bonspiel Results

The annual Gleichen bonspiel came to an end late Thursday evening when the final games were played. The Simpson rink of Bassano was winner of the grand aggregate trophy and individual cups. Results of the four events are as follows:

Grand Challenge: A. Simpson, Bassano; 2nd Ted Frogatt, Gleichen; 3rd R. Goldsmith, Cluny; 4th J. Cammaert, Rockyford.

Merchants: 1, A. Desmet, Strathmore; 2, George Burne, Gleichen; 3, Bill Blaney Gleichen; 4, Van Nennen, Strathmore.

Consolation: 1, Tom Brown; 2, Cam Brown; 3, Leo Woods; 4, H. Biggs, all of Gleichen.

Stan Christie of Strathmore won the non-winners prize.

Jack Wilson was the lucky winner of the door prize which is a set of silver.

Twenty eight rinks were in thespiel and it was one of the happiest spiels played in years since all the players seemed to be out for the fun there was in the game.

Is western Canada now capable under given moisture conditions of producing more wheat per acre than was possible, under the same moisture conditions say, twenty years ago? This is a question that is being posed today, as average wheat yields for the past 15 years are compared with those for an earlier period. The average wheat yields for Alberta is almost three bushels higher during recent years. Authorities agree that not all the increase in yield is due to the better moisture conditions. Improved methods of cultivation, the greater use of mechanization, the chemical control of weeds, the more widespread use of fertilizers and the development and use of better varieties have, in fact, all played a part in the higher returns that have been experienced of recent years. Some of these factors would undoubtedly be nullified, or largely so, should extreme drought conditions prevail again, but under normal moisture conditions, they have made a definite contribution toward raising the general yield level. That is one of the reasons why, despite the depletion in soil fertility, which is going on gradually all the time, Western Canada's wheat fields are giving a somewhat better account of themselves and will probably continue to do so in the years ahead.

## Banking the way you like it...

*Today's bank is a bright, pleasant, informal place, where service is both efficient and friendly.*

*The manager's door is always open—his experience, knowledge and judgement will be useful to you.*

\* The average price per kilowatt hour paid for electric service for farm use today, too, is less than 50% of what the average price paid by farm customers was in 1939.

*People use the bank for many purposes—to deposit savings, arrange loans, buy travellers cheques...*

Nowadays people drop into the bank as casually as into the corner store. The neighborhood branch is an integral part of the life of the community. The 4,000 branches of Canada's chartered banks make available an all-round, nation-wide banking service—a friendly personal service keyed to Canadian conditions and the everyday needs of millions of customers.

**THE BANKS SERVING YOUR COMMUNITY**

## Completely automatic 'phone exchange opened at Estevan

REGINA.—The tenth completely automatic telephone exchange to be installed in Saskatchewan during the past six years, and the twentieth dial exchange centre in the province went into service at Estevan at 11 p.m. CST, January 18, Hon. A. G. Kuziak, Minister of Telephones, announced.

Other exchanges converted in the past few years are Melville, Assiniboia, Moosomin, Biggar, Watrous, Weyburn, Nipawin, Tisdale and Kindersley.

With the Estevan cut-over, the new automatic equipment will provide 1,100 lines for local service, 100 for rotary business purposes and 40 for rural line service. A new four position toll switchboard will replace the present six position battery switchboard, the last one to be used by the Saskatchewan Government Telephones.

In addition, substantial alterations to the cable facilities in Estevan were completed at a cost of approximately \$70,000. This work improved the distribution system and made telephones available to the waiting applicants in the town.

### Opening Manitoba Legislature set for February 1

Premier Douglas Campbell has announced that Tuesday, February 1, will be opening day for the second session of Manitoba's 24th legislature.

Highlights of the ceremony which traditionally marks the opening of the legislature will this year be seen by many more than the number of visitors who can find a place in the crowded galleries.

Television cameras will be on hand to record proceedings for local TV viewers. News casts of the event should be ready for showing on the regular newscast at 7:15 p.m., either on Tuesday or the following evening.

### Itch...Itch...I Was Nearly Crazy

Very first use of soothing, cooling liquid D. D. D. Prescription positively relieves dry, red itches caused by eczema, rashes, scalp irritation, dandruff, scabies, ringworm, Grease-itis, staphylococcal, etc. Trial bottle must satisfy or money back. Don't suffer. Ask your druggist for D. D. D. PRESCRIPTION

### INSTANT RELIEF FROM COUGHS due to colds

The active ingredients of time-tested Pinex cough syrup bring fast, welcome relief from distressing coughs. You save money too when you buy Pinex Concentrate. A bottle mixes with honey or syrup to make 16 ounces of pleasant-tasting cough medicine that's good for the whole family. Keep it ready for the very first sign of a cough.

At all druggists

Mr. Kuziak said the cost of the new exchange, automatic equipment and other necessary improvements will be in excess of \$275,000. Rural lines have been equipped with ringing equipment to serve 275 rural subscribers.

The Estevan plant was purchased from the Saskatchewan Telephone Company in July, 1958, when it had 83 subscribers. With the cut-over there will be more than 1,470 subscribers, as a result of filling waiting applicants.

The conversion of the Estevan exchange to automatic service, Mr. Kuziak said, is another step toward a completely dial operated system and would bring more and better telephone service to the Estevan exchange area.

### Wadena member to move address to throne speech

REGINA.—The address in reply to the Speech from the Throne at the coming session of the provincial legislature, will be moved by Fred A. Dewhurst, M.L.A. for Wadena, Premier T. C. Douglas has announced. The seconder will be Dempster H. R. Heming, M.L.A. for Moose Jaw.

The third session of the twelfth legislature will open on Thursday, February 10th. After the formal opening and a routine sitting on Friday, the throne speech debate will begin on Monday, February 14th.

The mover of the throne speech, Mr. Dewhurst, was born in Regina in 1911, but has pursued farming as an occupation, in the Dahltown district, since the completion of his education. Mr. Dewhurst has served on the Archerwill credit union board, the Barrier Lake school board, and the Dahltown wheat pool committee, and was active in organizing the Archerwill co-operative store. He was first elected to the provincial legislature in the Wadena by-election of 1945, and was re-elected in 1948 and 1952.

The seconder, Mr. Heming, was born in England and received his education at Westminster and King's University, London. He has resided in Moose Jaw since 1912.

Mr. Heming has been a trade unionist for over 40 years, and has served on the local and general grievance committees of the Brotherhood of Railway Trainmen. He has been an alderman of the city of Moose Jaw, and a member of nearly all boards of council.

First elected to the Saskatchewan legislature in 1944, Mr. Heming has represented the city of Moose Jaw for the past 10 years.

### Embryo barley test is urged

Saskatoon.—The embryo test should be established as the sole means of determining the prevalence of loose smut in barley, Jim Farquharson, president of the Canadian Seed Growers' Association declares.

He told the annual meeting of the association's Saskatoon branch that the federal laboratory of plant pathology in Saskatoon could handle the embryo tests for Saskatchewan if field inspections for loose smut were eliminated. The Saskatoon laboratory discovered and developed the embryo test.

### SCIENTIFIC WORK

SASKATOON.—Dr. Rudolph Atshcul, professor of anatomy at the college of medicine of the University of Saskatchewan, has had a book entitled "Endothelium" published. It deals with scientific problems of the thin lining of blood vessels.

The moon has a surface one-fourteenth as large as the earth.

Whether you live in a used house or are planning a new one, a place should be found for this cabinet to hold ironing and pressing equipment. With this cabinet complete as illustrated you are ready in ten seconds to do any job of ironing or to press a garment that is in the process of making. Directions for the cabinet and ironing ovens are on pattern 391. Large diagrams and one-two-three directions for making the small board and ham-shaped cushions which tailors use when pressing sleeves and the shoulders of garments are all on pattern 392. These patterns are 35¢ each and will be mailed the day order is received. For first class mail delivery add 2¢, or 5¢ for air mail for each pattern ordered.

The flush finish and tapered legs of this modern dining table distinguish it at first sight as a strictly custom job. The top is of walnut-surface plywood contrasting smartly with the edge frame and legs which are of light pine. For use in a kitchen alcove or a snack room a more practical top would be one of the bright colored panel materials with plastic chair seats to match. The table is 31½ inches wide and four feet long. The construction drawings show each member separately and just how they go together. There are also large clear drawings for making the extension slides for those who want to use an extra leaf. The patterns are 35¢ each.

Address order to:

Home Workshop Pattern Service,  
4433 West Fifth Avenue,  
Vancouver, B.C.

### Scout jamboree August 18 to 28

Only eight months remain before the Eighth World Scout Jamboree takes place at Niagara-on-the-Lake, next August 18 to 28. There is marked acceleration of interest in this, the first world Scout gathering ever to be held in North America.

Great Britain is planning a sizeable contingent; Germany hopes to send at least 120 Scouts and leaders; Italy plans a group of 100 Scouts and ten leaders; France is working for a large contingent; Liechtenstein is sending four or five; the Netherlands, 44; Portugal, 11; Sweden, 30; Switzerland, 150; according to latest reports.

South Africa has a party of 22 coming to the Jamboree; Australia, 30; Mexico, 143; Venezuela, 72 and the United States, 1,500. As host country, Canada will have 3,500 Scouts and leaders at the Jamboree, it is planned.

### TOWN IS LARGER

CARMAN, Man.—This southern Manitoba town is bigger than officials thought—by one-eighth of a mile on the eastern boundary. The error was discovered when provincial surveyors took measurements for a new highway. Mayor F. C. Harris said the original mistake was apparently made in 1905.

Canadian women used an average of slightly more than 11 pairs each of full-fashioned hosiery in 1953.

## The Annual Meeting Of Shareholders The Royal Bank of Canada

1955 to be "Year of Decision" for Canada, Determining Economic Welfare for Years to Come, Declares James Muir

Prosperous Future Lies in Improving Competitive Position, Not in Hiding Behind Trade Barriers. Scope of Existing Agencies Should be Broadened to Provide Long-Term Export Credits.

### 1955: YEAR OF DECISION

"I believe that 1955 is a 'year of decision' in which our solution of immediate problems will have a tremendous capacity for good or evil in Canada's future was expressed by James Muir, Chairman and President, at the Annual Meeting of Shareholders of The Royal Bank of Canada. Only a rare combination of statesmanship and good fortune, he declared, could guarantee proper solution of these problems.

"In a period of obvious inflation or deflation," said Mr. Muir, "it is comparatively easy to decide on the appropriate direction of monetary and fiscal policy, and the major problem becomes that of choosing the combination that achieves maximum effectiveness with the least cost and dislocation to the economy. The really difficult decisions must be made at a time like the present when it is still unsafe to pronounce inflation entirely cured and still less so to assume that the paramount danger of the moment is the galloping deflation of the early 1930's.

### ECONOMIC PROBLEMS

"The problems posed by the high cost economy become more acute with every increase in the competitive threat of foreign industry to Canada's markets at home and abroad. Pressure for protective measures becomes more insistent as the immediate effects of sharpened competition become apparent. I am still of the opinion that Canada's future lies on the side of improving her competitive position rather than isolating herself behind heightened barriers to trade.

"Increased protection is no answer. The disadvantage of our dollar's high exchange value is general: it affects all Canadian producers. It imposes a tax on exports and a subsidy on imports. Protection helps only those Canadian producers who must compete in the home markets against imports: it does nothing for our exporters except to subject them to a further rise in domestic costs and hence to a further limit on their ability to compete in foreign markets.

### LONG-TERM FINANCING

"The noticeable decline in exports since 1952 may also be attributed to a number of interrelated causes: price declines, increased competition from low cost producers abroad, the recovery of industrial capacity in war-torn countries, and the like. All these tend to alter relative cost and price relationships in the world market to Canada's disadvantage. But, in addition to the important matter of relative costs, a new factor has been injected by European suppliers who are able, with government support, to offer long-term financing to their customers in the world market.

"In view of the importance to Canada, today and in the future, not only of maintaining exports, but of maintaining intact her industrial legacy from wartime expansion, it seems abundantly clear that definite action should now be taken to provide our traders with the credit facilities they lack. These facilities might take various forms; but, in general, they could be provided by a corporation, owned partly or wholly by the Government, with the power to discount export paper of longer term than chartered banks can handle. The essential function of such a corporation could indeed be provided very simply by widening the scope and operations of existing government entities now active in assisting trade and industry.

"How we meet our problems in this year of decision will, as I have said, profoundly affect the direction and rate of Canada's growth. If the decisions we make are in keeping both with the real-

### FORESIGHT NEEDED

"We have the natural resources necessary to make our own efforts worth while; and so in the end our progress depends upon the quality and quantity of our human resources. I do not think we need have many doubts about the high quality of our human resources. But it remains for far-sighted policy in business and government to ensure not only that this high quality is fully and efficiently used, so as to realize fully our capacity to produce and prosper today, but that we achieve the proper degree of expansion in the quantity of these resources available for use tomorrow. We must start today to create the economic environment that will both encourage, and enable us to take full advantage of that growth in population and capital without which we cannot realize the great potentialities that lie in our wealth of natural resources.

"How we meet our problems in this year of decision will, as I have said, profoundly affect the direction and rate of Canada's growth. If the decisions we make are in keeping both with the real-

### General Manager Reports Assets Over \$3 Billion

T. H. Atkinson, General Manager, in reviewing the bank's 1954 report, stated that total assets of The Royal Bank of Canada have now passed the three-billion mark. This, he pointed out, was a new record in the history of Canadian banking, and an indication of the bank's pre-eminence in the opinion of the public.

Deposits had also reached record totals, said Mr. Atkinson, pointing out that they now stand at \$2,797,548,149. "It would have been reasonable to expect a decline in loans to accompany a falling off in the gross national product," he commented, "but this has not been the case, although the pace at which loans were expanding has slowed down. Our loans have increased to a total of \$1,188,022,447."

Mr. Atkinson said that for the first time, the revised Bank Act enables banks to advance money against new residential construction under the National Housing Act. "We had advances outstanding in this category amounting to \$22,872,390," he said. "Actually our total commitments are something over \$62,000,000—the difference between the two amounts to be loaned as construction proceeds. This represents approximately 40% of the total commitments of all the banks."

### ROYAL BANK ABROAD

Mr. Atkinson reported that the bank's foreign branches had made further progress during the year, with most satisfactory results.

"In keeping with our past policy of extending our services to new areas where development warrants banking facilities, we have opened one branch outside Canada during the past year and in the near future will open three more in the Caribbean area which will bring the total of our foreign branches to 74. These 74 branches mean 74 Canadian representatives abroad whose services are at the disposal of Canadian businessmen to give them first-hand information on conditions in their respective localities. At a time when Canadian export trade has been declining as a result of increased and intensified competition from other exporting countries, these 74 information centres abroad can be of inestimable value to Canadian exporters by assisting them through up-to-date and first-hand knowledge of the local markets.

"Our foreign service is a source of great pride to us and, we feel, justifiably so. During the past 55 years, we have built up an enviable reputation abroad and are very much an integral part of the business life of the countries where we operate; in fact, in some cases we are considered a local bank rather than a foreign one.

### GREAT STAFF TEAM

"Including maintenance staff, technicians, and others with special duties, we now employ well in excess of 15,000 people. They are welded into a great and resolute team which take second place to none. 1954 was no exception to the pattern of the post-war period which has seen the emergence annually of increased volume and new business procedures to place fresh demands upon the staff. Again the challenge has been met with skill and devotion.

"We are proud of our staff, not only for what they accomplish on public counters and at their desks but for the services they perform voluntarily outside the bank in the hundreds of communities in which we are represented. We have files of heartwarming letters as eloquent testimony that their efforts do not go unappreciated."

ties of the present and with those of that greater Canada which can be seen in outline even now, we may safely leave our doubts behind and, by making the decisions appropriate to greatness, bring greatness itself within our grasp."

was another, about six inches long and three inches in girth.

The trembling aspen is the American tree with the widest range

### Mustard-Pickle Dumplings

Mix and sift into a bowl, 1½ c. once-sifted pastry flour (or 1¼ c. once-sifted all-purpose flour), 3 tsps. Magic Baking Powder, ½ tsp. salt. Cut in finely 2 tbs. chilled shortening. Make a well in dry ingredients and add ½ c. finely-chopped mustard pickle in sauce and ¼ c. milk; mix lightly with a fork, adding milk if necessary, to make a drop dough. Drop in 6 portions, over hot cooked stew. Cover closely, and simmer (never lifting the cover) for 15 mins. Yield—6 servings.

Horses were not known on the North American continent until the coming of Europeans, who introduced them.

## OUR COMPLETE SHORT STORY—

## THE SENTENCE

—By JOHN T. KIERAN

"I'll never burn!" was Tainter's repeated assertion, even after they had removed him to cell block K, that island of the condemned set in this sea of humanity's flotsam and jetsam. And now his great opportunity had come.

Cell block K was separate from the other cell blocks and situated in the centre of the huge old building that formed part of the prison. Ordinarily the cells in K would have been the last word in inescapable imprisonment, but just as they had been made more cunning-proof than the cells in the other blocks, so were the men confined in them possessed of more cunning and a relentless, desperate sort of courage than the men in the others.

Tainter was one of the condemned. Until the moment of his execution he was to be confined in block K. Burn him! That was what they were going to do. Give him the chair. But they wouldn't! He would never burn. Any chance, any attempt, no matter how desperate would be preferable to waiting here for the time when they would sit him down in that chair. It scared him every time he thought of it. He wasn't a coward. No one who knew him would ever say that. He had faced death too many times in his operations. Maybe it was why he was so successful a killer, his lack of fear. But this! Led like a sheep to be bumped off by a trickle of juice he couldn't even see. No matter what happened he would not be electrocuted.

For a long time the whole prison had been seething with discontent. Crowded quarters, restricted privileges due to lack of facilities, and other less well-founded complaints had made the men rebellious and sullen. And the men in block K, the condemned and the incorrigibles, smouldered with the fires of desperate natures or the fears of what was coming.

Tainter engineered the break from the start. By means of the usual underground telegraph the entire block was in on the plan. Several of the trustees had been enlisted. They were to furnish the revolvers and to aid the men in getting out into the corridors.

Tainter feared only one man. That was Hardy, the head warden. He had such an uncanny way of ferreting out breaks just before they broke. Also there was Father Hazzlet, the prison "sky-

Drive With Care!

## Funny and Otherwise

The young stenographer was given her first instructions by the boss.

"There are two words that I never want to hear you use around here," he said. "One is lousy and the other is terrific."

"O.K.," replied the girl. "What are the words?"

The father was solemnly explaining the ceremony to his six-year-old daughter who was looking at a wedding picture of her parents. Suddenly the daughter exclaimed: "Oh! Is that when you got mother to come work for us?"

A newlywed groom came home one evening with a package of sausage and suggested that the bride prepare them for breakfast. "How do you cook them?" his bride inquired timidly.

"Fry 'em just like fish," instructed the husband patiently. Next morning the bride sat at the breakfast table and apologized. "I hope you enjoy the sausages, dear, but there wasn't much left of them after I cleaned the insides out."

"Do you know what the motto of this company is?" the personnel officer asked the job applicant.

"Yes, sir," came the reply. "It's 'Push.'"

"What gave you that idea?" asked the interviewer.

"I saw it on the door when I came in," said the applicant.

A frightened householder evidently reported to police headquarters that he had been struck down in the dark outside his back door by an unknown assailant.

A young policeman was sent to the scene of the crime to investigate and soon returned to headquarters with a lump on his forehead and a glum look on his face.

"I solved the case," he muttered.

"Amazingly fast work," his superior complimented him.

"How did you accomplish it?"

The young cop explained: "I stepped on the same rake."

## Fed passengers ants, herring

VANCOUVER, B.C.—C. P. Airlines reported it had to feed some of its trans-Pacific passengers live ants and raw herring.

The passengers were penguins, gold fish, monkeys and an ant-eater CPA has been ferrying to Canadian zoos.

## CURRIED CHICKEN

4 tablespoons MAZOLA Salad Oil  
1/2 cup finely chopped onion  
1 clove garlic (optional)  
2 teaspoons curry powder  
1 teaspoon salt  
4 tablespoons BENSON'S or CANADA Corn Starch  
2 1/2 cups chicken stock  
2 cups cooked diced chicken

PLACE MAZOLA Salad Oil in heavy kettle; add onion and garlic.

COOK over low heat until onion is tender but not brown.

REMOVE from heat; remove garlic.

ADD curry powder, salt and BENSON'S or CANADA Corn Starch blending well.

STIR in chicken stock gradually.

COOK over low heat, stirring constantly, until mixture thickens and comes to a boil.

ADD chicken, mixing well, then heat thoroughly.

SERVE hot with steamed rice, garnish with parsley if desired.

YIELD: 4 to 6 servings.

NOTE: Cooked veal, pork or turkey can be substituted for chicken.

P.O. Box 129, Montreal, P.Q.

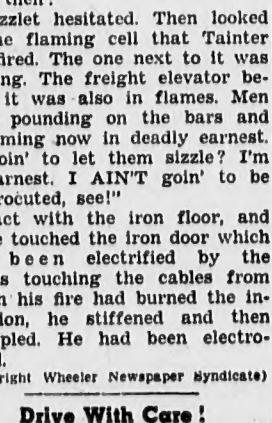

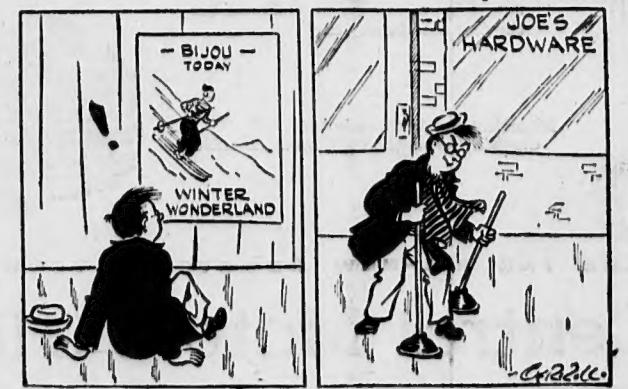

1. Butterscotch Nut Buns Melt 3 tablespoons butter or margarine in 8-inch square pan; brush sides of pan with fat; mix in 1 tablespoon corn syrup, 1/2 cup lightly-packed brown sugar and 1/2 cup broken walnuts or pecans. Combine in a shallow bowl 1/4 cup sugar, 1 teaspoon cinnamon and 1/8 teaspoon nutmeg. Cut out rounded spoonfuls of dough, coat with cinnamon mixture and place in pan; sprinkle with any remaining spiced sugar. Cover and let rise until double in bulk. Bake in moderately hot oven, 375°, about 35 minutes.

2. Cheese Pull-Aparts Line bottom of a greased 8-inch square pan with waxed paper. Cut half of dough into rounded spoonfuls; place in pan; sprinkle with 2 cups shredded cheese. Spoon remaining half of dough on top; grease tops. Cover and let rise until doubled in bulk. Bake in moderately hot oven, 375°, about 25 minutes.

3. Seed Buns Cut out rounded spoonfuls of dough and drop into greased muffin pans—each spoonful should about half fill a pan. Brush with melted butter or margarine; sprinkle with poppy seeds. Cover and let rise until doubled in bulk. Bake in moderately hot oven, 375°, 20 minutes.

## PUBLIC

## NOTICE

Plans for Alberta Golden Jubilee celebrations and activities this year, are being finalized and will be made known to all, when completed.

To date, no official publication or Golden Jubilee Directory has been undertaken or contemplated by the Government of Alberta.

If any such publication is considered, an official announcement will be made.

You are therefore advised that any person soliciting advertising or funds for such purposes, do so on their own behalf.

## GOLDEN JUBILEE COMMITTEE

GOVERNMENT OF THE PROVINCE OF ALBERTA

## HERE AND THERE

Born to Mr. and Mrs. Frank Michael a son on February 26th.

Dan MacDonald, the local blacksmith, is at present in a Calgary hospital quite ill. Dan has been ailing for several weeks and about a week ago his friends persuaded him to seek medical treatment.

Mr. and Mrs. W. Henderson have taken apartments in Mrs. E. Menard's residence. They came to Gleichen from Bow Island. Mr. Henderson works for the Calgary Power Company under the local man Al Wilson.

Mr. and Mrs. Beaple and son have taken up residence in the house formerly occupied by Mr. and Mrs. W. Cook. Mr. Beaple is with the staff at Eventide Home.

The ladies curling club started their annual bonspiel yesterday morning at 9 o'clock. There are 13 rinks entered 8 of which are outside rinks. One rink came all the way from Delia.

McKay of Vancouver has been spending the past week in town visiting his mother and brothers.

At the High School Association meeting a demonstration of the work of the Junior Red Cross, Grades 5 and 6 was given. Also on the program was a demonstration on Life in Medieval Times. The travelling Alberta art display was shown.

The Kilarney hockey team, Calgary, played the local team Saturday night. The Gleichen boys won by a score of 8 to 5. The ice was in excellent condition and as a result the few fans on hand saw a real fast game.

## Forest Protection

## and Conservation

## in Alberta

petual supply of timber for future generations.

The fish and game branch plays an important part in the work of the Department of Lands and Forests. Conservation is the keynote here also. A trout hatchery is maintained in Calgary and trout rearing stations are located

at two centres. Annual plantings of various species of fish are made in carefully selected waters and many smaller lakes owe their fishing attractions to this work.

Commercial fishing in Alberta yields over ten million pounds annually, and an inspection service ensures a high quality product when packed for the domestic markets.

The game branch maintains a pheasant farm at Brooks where six to seven thousand birds are hatched for release in various parts of the province.

Other duties, no less important, include transporting live beaver to the northern parts of Alberta, making surveys of migratory birds, upland birds and big game and co-operation in the work of rabies control in our northern forests.

*Styling that captures the eye — power that commands the road!*

Long and low... sleek and smart... the exciting new De Soto draws admiring glances wherever you drive!

Its fresh, modern motion-design conveys The Forward Look of motion, even when the car is standing still. It's roomy and road-hugging... a foot and a half wider than it is high. Its bigger glass areas slope gracefully inward from all sides toward the slim, trim top.

Below the broad hood, with its distinctive air scoop, is thrilling new power to rule the road! All 1955 De Sotos have magnificent new V-8 engines teamed with PowerFlite automatic transmission.

*The fabulous new*

**DE SOTO '55**

*Two great new V-8's!* Superb new 200-h.p. Fireflite V-8 with four-barrel carburetion gives you silken-smooth idling, flashing acceleration. Brilliant new 185-h.p. Firedome V-8 provides exceptional performance, combined with top economy.

*First in style!* New Horizon windshield is the first true wrap-around design. Its corner posts are swept back so the glass can curve around at top as well as at the bottom. Luxurious interiors feature many smart new fabrics and colours offered for the first time in any car!

Manufactured in Canada by Chrysler Corporation of Canada, Limited
